

Three tips for understanding your insurance coverage.

Whether you've chosen a new insurance plan or not, running a Benefits Verification can help you understand your insurance coverage and out-of-pocket costs for the next year.

See all the options below:

1

Call **1.800.274.6867** to get a **Benefits Verification**.

This will help you confirm what your out-of-pocket costs may be for the new year.

2

Contact your doctor to see if you need **prior authorization** (pre-approval) for your medication.

3

Contact your **specialty pharmacy** to see if your pharmacy will change and to see if anything changed based on your chosen insurance coverage.

Notes

You can use this page to jot down notes about the options on the front of this card.
If you have any pressing questions, feel free to jot down those, too!
